DESCRIZIONE DEI PRINCIPALI RISULTATI SCIENTIFICI CONSEGUITI NEGLI ULTIMI 10 ANNI (CON ANNESSO ELENCO DI MASSIMO 10 PUBBLICAZIONI) / DESCRIPTION OF THE MAIN SCIENTIFIC RESULTS ACHIEVED IN THE LAST 10 YEARS (WITH ATTACHED LIST OF MAXIMUM 10 PUBLICATIONS):

Descrizione Description:	<p><i>In the last 10 years Caranti has applied results arising from his reading of Kant to some political and societal issues, ranging from the definition and comparison of various normative models for peace, the intrinsic pathology of democracy, the paradox haunting a common European defense, the foundation of human rights, a better understanding of human dignity. In addition, he launched (with Nunzio Ali) a new proposal in the theory of justice called 'proportional justice'. Total citations 441, 254 from 2020 (google scholar) The Kantian Federation. Cambridge: Cambridge University Press, 2022. The book delves into the much-debated aspect of the model related to the powers of the supra-national institution Kant recommends for the sake of peace. Defending the idea that national sovereignty depends on states' autonomy regarding the use of military power, the book offers an interpretation that departs from the mainstream reading and sheds new lights on why the EU finds it so difficult to build a common army. Kant's Political Legacy. Human Rights, Peace, Progress. Cardiff: University of Wales Press 2017. This book focuses on Kant's analysis of three issues crucial for contemporary politics. It highlights how a Kantian foundation of human</i></p>
-----------------------------	--

	<p><i>rights, properly understood, appears more promising than other foundational arguments. It compares Kant's model for peace with the apparently similar model of democratic peace. It analyses and defends Kant's controversial view of history. The book has been discussed in special issues of various leading journals and attracted 15 review essays in various languages. "Why does Kant Think that Democracy is Necessarily Despotic?" Kantian Review, 1-17, 2023. 2023 A novel interpretation of Kant's criticism of democracy leads to unpack a feature of democracy scarcely noticed in political theory. "The Limits of Limitarianism. Why Political Equality is not Protected by Robeyns' Democratic Argument" Politica e Società, 10 (1) 2021: 89-116. A criticism of the influential recent proposal of Ingrid Robeyns. The paper argues that there is a way of reaching Robeyn's normative desiderata without paying high costs in terms of individual freedom and respect of pluralism "How Much Economic Inequality is Fair in Liberal Democracies? The Approach of Proportional Justice" Philosophy and Social Criticism, 2021: 1-20. The article argues that the only remedy against domination is the containment of economic inequality within a certain proportion, expressed in terms of ratios between the material resources of the best-off and the worst-off. "Kantian Peace and Liberal Peace: Three Concerns" Journal of Political Philosophy 2016; 24 (4), 446-469. This paper (published in the top journal of PI's discipline) criticizes the way in which democratic peace theory has interpreted Kant's normative indications for reaching perpetual peace. In particular, it highlights the relevant differences between Kantian republics and liberal democracies.</i></p>
